ECO FRIENDLY

PROFESSIONAL CALCULATORS

In compliance with environmental laws and requirements, the products in Olivetti's **ECO-FRIENDLY** range contain no toxic substances and help prevent the spread of agents harmful to people's health.
They deliver impressive quality, performance and reliability levels, greater energy efficiency and savings, and are made from recycled and easily recyclable materials. Reduced environmental impact and user safety: for maximum value for customers.

ECO FRIENDLY	**A calculator line that respects the environment and safeguards health**
SAVING	**Low energy consumption, automatic switch-off of the display after 3 minutes of inactivity. It keeps calculations on memory**
RECYCLED RECYCLABLE	**It is produced using recycled plastic that can be recycled again many times**
ANTISEPTIC	**It uses an antiseptic keyboard able to prevent the spread of bacteria and micro-organisms harmful to the health**
